Ahmad El-Assaad

IT student | Sydney, NSW | ahmad@example.com

PROFILE

IT student in Sydney with a hands-on approach to web design, cyber security and networking, and systems. I build websites, run Linux and virtualisation labs, troubleshoot hardware and develop game projects.

EDUCATION

Information Technology Studies, Western Sydney University
Coursework includes website design (INFO1005), with a focus on cyber security, networking and systems.

PROJECTS AND HANDS-ON EXPERIENCE

Sydney Transit Simulator (Roblox Studio)
Public transport simulator covering buses, trains, metro and light rail, all bus regions and the intercity lines.

Home Lab: Linux, Virtual Machines and Hardware
Other operating systems in QEMU/KVM on Linux, Linux on a MacBook Pro M2 from USB, Cisco CLI and SSH practice, graphics card troubleshooting.

Responsive Portfolio Website
Multipage Bootstrap 5.3 site with custom CSS and a paint-brush dark mode animation.

SKILLS

Web design: HTML, CSS, Bootstrap, JavaScript basics
Networking and cyber security: Cisco CLI, SSH, security fundamentals
Systems: Linux, virtual machines, hardware troubleshooting, Roblox (Luau)
